# ECCP Oncology Track Sessions

Session 1: September 8<sup>th</sup> 16:00 h – 17:30h

## Early-stage oncology opportunities – Teaming up for the success stories of tomorrow

Moderator: **Ketil Widerberg**, Managing Director Oslo Cancer Cluster

- **Dr. Corinne Venot**, Sanofi Oncology Division, Oncology Business Opportunity
- **NORTH Academic Innovation Showcase**: Pre-commercial oncology projects from Nordic TTOs and Incubators are presented in short pitches
  - Vincenzo Cerullo, University of Helsinki, Finland: PeptiCrad
  - Juha Pulkkinen, University of Kuopio, Finland: Novel solutions targeting androgen receptor in prostate cancer
  - Cathrine Taylor Nordgård, NTNU, Norway: RIXOVA
  - Eirik Sundby, NTNU, Norway: Kinase inhibitors
  - Mohammed Amarzguioui, Inven2 / for Oslo University Hospital, Norway: Tankyrase inhibitor
  - Mohammed Amarzguioui, Inven2 / for Oslo University Hospital, Norway: Cologuide Prognostic Test
  - Thomas Helleday, Scilifelab / Karolinska, Sweden: MTH1 Inhibitor
  - Ann Zahle Andersen, University of Southern Denmark, Denmark: KRAS targeting SSOs
- Early phase innovation from Health Capital Berlin-Brandenburg:
  - Christiane Smerling, 3B-Pharma
  - Dirk Pleimes, Myelo Therapeutics
  - Volker Rindler, Alrise Biosystems GmbH
- **Maria Bobadilla**, Senior Director, Academic Innovation Partnering, Hoffmann-La Roche

## Session 2: September 9th 9:00 h – 10:30

### **Cancer Immunotherapies – Novel opportunities via disruptive innovation**

Moderator: **Johan Christenson** MD, PhD, Partner HealthCap

- **Donnie McGrath**, Vice President Search & Evaluation, Business Development; Bristol-Myers Squibb
- **Dr Loic Vincent**, Sanofi Oncology Division, Oncology Business Opportunity

#### ***Spotlight: Innovation ecosystems in Immuno-Oncology***

The speakers will provide an overview of academic centres, spin-offs and emerging pipelines in their cluster:

- **Medicon Valley**, Sweden / Denmark: **Sybille Lenz**, CEO Alligator Bioscience
- **Oslo Cancer Cluster**, Norway: **Øyvind Arnesen**, CEO Ultimovacs AS
- **Cancer-Bio-Santé**, Toulouse, France: **Prof. Jean-Jacques Fournié**, Director Cancer Research Center of Toulouse
- **Cancer Campus** / Medicien, Paris, France; **Erwan Corcuff**, CEO Axenis
- **BioWin**, Wallonia, Belgium: **Dominique Demonté**, Director of the BIOPARK Charleroi Brussels South, Université Libre de Bruxelles
- **Dr Bertil Jonsson**, MD, Vice-Chair, CHMP Efficacy Working Party - Human Medicines & Swedish Medical Products Agency

Session 3, September 9<sup>th</sup>, 2014, 11:00 – 12:30h

## **Biomarkers, Biobanks and Big Data in Oncology – How to accelerate product development and improve patient treatment?**

Moderator: **Prof. Carl Borrebaeck**, CREATE Health, Lund University

### *Advancing infrastructures to exploit biobanks assets:*

- The power of coupling biobanks and national health registries: **Christian Jonasson**, CSO Lifandis AS
- Longitudinal data and samples from cancer patients – why does it have to be so hard? The U-CAN project, **Dr. Tobias Sjöblom**, Uppsala University
- SciLifeLab's cancer stem cell program; **Dr. Sven Nelander**, Department of Immunology, Genetics and Pathology, Cancer and Vascular Biology, Uppsala University
- **Prof. Juni Palmgreen**, SeRC - The Swedish e-Science Research Centre; eScience for Cancer Prevention and Control

### *Industry Case Studies:*

- **Jean-Pol Detiffe**, CEO OncoDNA
- **Jean-Francois Pouliot**, European Medical Lead Oncology, MSD

### *Panel discussion:*

including **Maria Fagerquist**, Vice Director of the Swedish trade association for the research-based pharmaceutical industry to wrap up industry needs as starting point for panel discussion and speakers of this session

- How to exploit (Nordic) assets like Biobanks, health registries, novel tools and eScience approaches for the discovery and validation of biomarkers?
- How can existing limitations and challenges be addressed to accelerate product development and improve patient treatment?
